

Task 1 - GitHub Upload Guide

Upload the following files to your GitHub repository:

- file_handling.py (Python source code)
- sample.txt (Input file, if used)
- output.txt or output.csv (Generated output, if applicable)
- README.md (Project description, features, and how to run)
- screenshots/ folder containing output screenshots

Do not upload the PDF report to GitHub unless the internship instructions specifically ask for it. Use the PDF for the final internship submission if required.
